1. Read the article (available on-line through the UW electronic Library.)

(Note that this article was chosen as the Society for Clinical Trials “Trial of the Year” for their 2011 annual meeting.)

Write a brief summary (1–2 pages) of this article describing:

- Background (the problem, and why it is important)
- Study design
  - Population
  - Interventions
  - “Randomisation” (*The Lancet* is published in the UK)
  - Sample size
  - Outcome measures
  - Analysis
- Efficacy Results
  - Primary Outcome
  - Secondary Outcomes
